Precise personality assessments designed specifically for leaders

Tailored development plans focused on actions for sustainable growth

Executive coaching to achieve meaningful behavioral change

## Five Key Components

Using rigorous psychometrics and cutting-edge behavioral science, we designed five components to help leaders spark long-lasting change:

- ▶ **Assess** - Our three assessments will measure the bright side, dark side, and inside of a leader's personality, providing feedback on leadership style, strengths, and challenges.
- ▶ **Foundations** - Leaders attend an interactive, expert-led, half-day group coaching session.
- ▶ **Insight** - An intuitive web app enables leaders to explore their assessment results, write notes, ask questions, and review development ideas.
- ▶ **Coaching** - Leaders will work one-on-one with a world-class executive coach to use their Hogan insights to create a personalized action plan.
- ▶ **Action** - Leaders put their plan to use, tracking progress and setting new goals along the way.

## Transform Your Leadership

The beauty of the Hogan Leadership Experience is that it can fit seamlessly into existing development programs or stand alone as a high-impact development experience. With either approach, leaders will:
