# Our solutions

## Enterprise Toolkit

Designed for larger organisations and teams, our Enterprise Toolkit offers thousands of on-demand resources in a range of formats. It also includes a robust onboarding process, and on going support from a dedicated Client Partner.

## Small Business Toolkit

The Small Business Toolkit has been specially designed for smaller businesses and teams. It combines powerful Sales Leadership training with essential skills development, all in one place and at an affordable price.

## Custom Solution

Every organisation has its own unique learning challenges, which is why we offer a bespoke custom learning solution. Our award-winning team works in collaboration with our clients to produce solutions that best reflect the needs and brand of every organisation.

## 101 Suite

This collection of off-the-shelf e-learning modules covers the core topics that are most important for compliance training and developing effective management and leadership skills.

## Learning Performance Benchmark

The Learning Performance Benchmark is the only free, independent, and confidential L&D comparison tool available today. You can use it to measure your organisation's performance, benchmark against your competitors and boost your learning maturity score.
