

# Build a Learning Culture

**Deliver and track training, develop people-first managers, and measure employee engagement with Bridge's suite of employee development tools.**

Our platform has transformed organizations by enabling skill and career growth, enhancing peer-to-peer connection, improving performance alignment, and driving revenue.

## With Bridge, you can:

### Scale Training Internally and Externally

Whether you're training teams of 20 or 20,000 our award-winning Learning Management System (LMS) can help you easily distribute learning content to your teams. It's easy to use for administrators and learners alike.

### Deliver Cohesive Learning Journeys

Inside our learning platform we offer some amazing features including *Journeys*, which allows you to stage courses and provide the right information, to the right person, at the right time. You'll be more efficient and you'll keep learners engaged over time.

### Leverage In-Depth Analytics

We give you invaluable analytical insights to help you gauge the effectiveness of your learning programs. Understand skills gaps, course completion rates and other key details that help you make impactful decisions in your business.

### Rich Video Capabilities

Video is an incredibly effective way for people to learn new skills and subjects. Teams can record training videos right from any device which can be used to onboard new team members, deliver training, plans for succession and more.

### Amazing Customer Support

At Bridge, our goal is to help you focus on your program, not your platform. Bridge has an in-house customer support team that works 24/7/365 and operates with a 99.97% customer satisfaction rating. You'll also have a dedicated customer success manager to help you achieve your goals.
