

# The PROFILOR<sup>®</sup> Development Series

## Introducing The PROFILOR<sup>®</sup> Family of 360 Instruments

Develop talent and build a stronger workforce. The PROFILOR<sup>®</sup> Family of 360 Instruments are the most widely used multi-rater assessments for individual and organization development. Researched-based and relevant to the demands of today's global workforce, The PROFILOR<sup>®</sup> Family of 360 Instruments measure the competencies and behaviors critical for success. Both individuals and organizations benefit from the insights and can take action on their development journey.

### THE PROFILOR<sup>®</sup> 360 FEEDBACK

The nine PROFILOR<sup>®</sup> models provide your company with assessments to meet a variety of business needs including skill-building, coaching, and succession planning. The most popular PROFILOR<sup>®</sup> models are available in 11 languages, include global norms, and have development suggestions to jumpstart learning. Assessments International, Inc. does not require facilitator certification but if needed, we offer a Training Workshop and highly skilled coaches to facilitate feedback sessions.

### THE PROFILOR<sup>®</sup> PROGRESS CHECK

The PROFILOR<sup>®</sup> Progress Check is a 360 instrument used to measure both an individual's effort and improvement towards their development goals. As a follow-up to a comprehensive PROFILOR<sup>®</sup> 360, The PROFILOR<sup>®</sup> Progress Check gathers multi-rater feedback on those topics an individual is working on and helps them stay on track, make course corrections, and celebrate success in their development journey.

Assessments International helps companies achieve business results by providing consulting services and access to leading assessments for identifying and developing talent, improving decision making, and unleashing potential.
