

The potential
of every
professional.

The promise of
every industry.

Your exam program is the start of something great. Your candidates will go on to lead in every single industry, creating ripples of innovation and progress across the world.

Keep that momentum going with Pearson VUE. Working with us, you'll benefit from multi-modal test delivery, best-in-class program management, and growth services that drive your program forward.

Best-in-class, global test delivery

Grow your exam program by taking advantage of our expansive test center network. Thousands of locations and a convenient online-proctoring platform mean you can reach candidates across the globe with ease.

And rest assured: regardless of how or where your exam is delivered, the test results are streamlined into a single candidate record for your convenience.

Exam delivery for all your needs

Test-center delivery: 5,600 physical locations in 180 countries

Online-proctored delivery: Convenient, comfortable testing at home or work

Client-proctored delivery: Flexible testing wherever your program takes you

Unproctored delivery: On-demand delivery for maintenance of certification, practice tests, or self-assessments

Expert exam development

Whether you're creating an exam from scratch or seeking to enhance your existing content, we can work with you in any capacity to develop a fair, valid, reliable, and legally defensible certification or licensure exam.

We have a team of experienced and highly respected psychometricians who can provide standard-setting assistance and ongoing analysis so that your exam achieves its optimal performance.

ExamDeveloper™

Our secure ExamDeveloper platform lets you collaborate remotely with your subject matter experts to write, review, and validate test items, helping you increase productivity and maximize cost savings while maintaining security. ExamDeveloper protects your most valued asset — your exam content — from development through publishing and delivery.

Client-first, end-to-end support

Manage your program with ease.

Drawing upon specialized knowledge of every testing program that comes through our doors, we provide exceptional customer support to help you manage day-to-day operations and explore new opportunities to grow.

Benefit from transition resources.

From press and publicity surrounding our partnership to stakeholder messaging and FAQs, you'll enjoy a seamless transition when you start working with Pearson VUE.

Cultivate your growth strategy.

We'll help you create exciting promotions and innovative digital marketing initiatives, so you can reach and motivate a candidate base across the world.

Empower your candidates.

Power certification prep with a custom-branded storefront on our ecommerce site, mindhub™. Through mindhub, your candidates can access:

- Computer-based testing demos
- Leading training materials
- Practice exams and study guides
- Video and eLearning courseware

Specialized resources for those who serve

There are roughly 2.4 million people in the United States Armed Services. That's an incredible potential audience for your certification program — an audience with unique skillsets, unrivaled experience, and incredible motivation to pursue new qualifications helping them bridge their military experience to the civilian sector.

And only Pearson VUE has the reach, experience, and relationships to help you tap into the potential of this community, by delivering your exam to our on-base test centers or developing certifications and assessments specific to federal programs.

Security that's a step ahead

Your exam program's value is no small thing. Preserving that value, maintaining candidate trust, and protecting your reputation requires skillfully navigating security risks. We'll help you identify the biggest threats, then develop a strategy to fight them — so you can breathe easier.

The market leader in testing security, we combine advanced technologies and human expertise to help you place intelligence-driven protections across all facets of your exam program.

Develop a plan with our Secure Testing Framework™.

To preserve your program's integrity, we'll use our proven Secure Testing Framework to develop a plan that integrates security into every element of exam development and delivery. That includes proactively detecting and preventing exam misconduct, and responding to fraudulent incidents.

Protect exam content with smart publishing and delivery tools.

No matter what type of testing you do or how often you publish content, our security measures preserve your exam content throughout its lifecycle.

Verify identities with leading technology.

Whether your exam is delivered in a test center or online, we use the latest identity management technology to verify the identity of every person who sits for an exam.

Defend your data with expert cyber defenses.

With more than 100 years of combined experience, our team of cybersecurity experts, test security professionals, and special investigators tap into robust data analytics and forensics to safeguard your exam program.
