

1. Are you looking for equity, diversity and inclusion (EDI) content for your L&D programming?
2. Do you want practical tools for driving inclusion that can be shared with your workforce?
3. Do you need expert facilitators from diverse backgrounds?
4. Do you want high levels and quality employee engagement during workshops?

Each Virtual Workshop Includes:

An introduction to contemporary concept with foundational language, real world case studies, and high-quality participant engagement.

An EDI tool for practical application that you can implement to support your colleagues and customers.

A call to action to become a change-agent in everyday interactions.

Each workshop experience is designed with adult learning and busy leaders in mind. Each workshop can be taken independently, or strung together to create a custom learning experience for your employees.
