

Give your team tools to thrive in the modern workforce

At Strategic Education, Inc., we believe in the power of education to transform lives and careers. We specialize in employer partnerships and solutions designed to offer choice and affordability for working adults.

We operate an education portfolio designed to support your organization's goals and meet your employees' needs. From talent acquisition to retention to development priorities, we can help your team reach their potential and fuel the success of your organization.

Benefit management

Workforce Edge An efficient, online platform to manage your organization's education benefits. Workforce Edge provides employees the ability to use their benefit at a program from a network of leading education providers offering best-available pricing, or at any school they choose. And allows employers to track all requests in the platform and gain access to reports and analytics to see progress across all employees.

University offerings

STRAYER
UNIVERSITY

Regionally accredited, innovative university designed for working adults and built for online learning. Strayer offers master's, bachelor's and associate degrees to provide options for employees at any point in their learning journey.

CAPELLA
UNIVERSITY

Online university with accredited programs that help working adults reach their personal and professional goals. Capella offers on-demand education through FlexPath, a learning format that allows students to move at their own pace using a subscription-based pricing model.

Specialized MBA program

JACK WELCH
MANAGEMENT INSTITUTE

Top-ranked, online MBA program built on the time-tested business practices from legendary CEO Jack Welch's decades of expertise. Students develop a deep understanding of management principles that will provide them with the confidence and skills to get ahead in their careers.

Degree enablement

Sophia's online, self-paced, general education courses can help your employees **start a pathway to a degree** in a simple, fast, and affordable way. Courses are ACE® Credit recommended for transfer to many colleges and universities.

Leadership training

CAPELLA
APPLIED LEADERSHIP SERIES

The Capella Applied Leadership Series is an online leadership development program specifically geared towards first-time people leaders. This competency-based, job-relevant training solution prepares rising corporate leaders to handle the complexities of people management.

**NURSING LEADERSHIP
DEVELOPMENT SERIES**
featuring Osmosis

This training series from Capella University is an innovative learning platform that empowers new and emerging nurse leaders with foundational business and management skills, designed to help health care organizations develop the next wave of nurse leaders.

Welch Way is an online, leadership transformation program designed to support employee productivity through former CEO Jack Welch's singular approach to leadership. Courses are based on his proven business insights that have the power to transform teams, manage change, drive business results and help people become more effective leaders.

Coding and software bootcamps

**HACKBRIGHT
ACADEMY**

A software engineering bootcamp for gender equality and people with diverse backgrounds. The school's hands-on curriculum can be custom-built to teach front end, back end and database programming, so that graduates can leave with the knowledge and tools to begin work as entry-level software engineers.

DEVMOUNTAIN

An industry-leading 16-week bootcamp for people without previous coding or design experience. Part of Strayer University, Devmountain offers hands-on, project-based courses in web and iOS app development, software engineering in Java and Python, cybersecurity, data analytics, user-experience design (UX), and software quality assurance (QA). Students are immersed in a culture of collaboration, productivity, hard work and imagination.

Specialized learning and skills training

**CAPELLA
UNIVERSITY**

A robust suite of nondegree development series offered by Capella that provides health care teams with up-to-the-minute skills to improve patient care. Topics include nursing leadership, risk management, Spanish, population health and telehealth.
