Video creation for everyone.

Engage, train, and communicate with your team and customers using video.

We believe video creation and sharing should be simple, fast, and effective for everyone.

We build simple and intuitive products that empower individuals and businesses of any size to create videos for training, knowledge sharing, communications, marketing, sales, and more.

SCAN ME

Engage, collaborate, and communicate with video.

≔ Plan

Start with an interactive storyboard or a script. Import slides, record videos, and add content from anywhere. Structure, rearrange, and build your trainings with the flexible, intuitive interface. Share storyboard templates.

🎥 Capture

Record engaging presentations and training on any device. Capture your screen, webcam, or both, add voiceover and captivate your audience with annotations. Make videos accessible with easy, automated captioning.

✨ Create

Polish your videos with our robust suite of editing tools. Add rich text, animations, video effects, and music. Choose from millions of stock images and video clips to make your content stand out.

👥 Share

Brand, organize, and share video content with your team. Engage learners on any device with interactive videos. Add quizzes, polls, and surveys to any video, then capture feedback and collaborate with text and video comments.

📈 Optimize

Monitor viewer engagement and video performance to optimize your content with video analytics and heatmaps. Get overview and detailed analytics for all quiz, poll, and survey responses.

ScreenPal®
