

Personalized Learning Experiences at Scale

A cloud-based learning platform that delivers personalized learning experiences at scale to your employees, customers, and partners alike. Embed learning as a part of your existing brand experience by integrating with your Experience Manager Sites or any other Content Management System to deliver a seamless content consumption experience and drive targeted communication using Marketo Engage integrations. Take advantage of comprehensive reporting features and even sell your courses with Adobe Commerce connectors.

One platform for all digital learning needs

Accelerate customer time to value

Help Marketing & CX teams bring their customers to speed with automated training programs around product and business.

Enable franchisee & stores for peak performance

Educate your franchisee & store owners to address customer expectations, drive business growth and achieve global standards of excellence.

Empower high-performing sales & partner teams

Deliver effective sales training programs to sharpen skills, ace negotiations and close deals faster.

Educate, engage and empower your employees

Future-proof your workforce to drive better business outcomes and create significant differences in the way you operate.

Simplify compliance for your enterprise

Transform the culture of compliance of your enterprise with engaging training experience.

Top features

Personalized learner experience

Transform every learner's experience with personalized dashboards for an overview of completed, pending, and recommended courses, alongside their badges and other milestones.

Hybrid and self-paced learning options

Conduct hybrid and self-paced learning programs enabled by out-of-the-box integrations with leading web-conferencing tools.

AI-powered training recommendations

Let learners enjoy personalized learning programs based on learning traits, peer activities, skills, and interests, with an AI-based recommendation engine.

Fluidic Player for seamless content presentation

Offer content in multiple formats through the Fluidic Player that allows AICC, SCORM, WORD, PPT, PDF and videos all from a single window.

Headless LMS

Deliver learning content natively within any Experience Manager Site through out-of-the-box components or any other Content Management System through open APIs.

Gamification and Social Learning

Drive engagement through points, badges and leaderboards. Allow learners to engage in active conversations through social discussion boards, encourage creation of user-generated content and identify subject matter experts based on social engagements.

Content Marketplace (86,000 + courses)

Access top-notch learning programs from the world's leading publishers such as Blinkist, EdX, Thomson Reuters and more.

Reporting

Check out granular insights about the health and usage of the platform with comprehensive reporting dashboards.

Extended Enterprise Capabilities

Create multiple learner groups and give each group their own instance of the learning platform using extended enterprise capabilities.

Integrations

Use out-of-the-box integrations to build your learning ecosystem.

Learning that boosts growth

Create your learning ecosystem with a learning platform that is preferred by leading Fortune 500 companies. Leverage the power of innovation, performance and best-in-class security to drive business results.
